Jangro

COSHH RISK ASSESSMENT

Jangro Fabric Softener (5 Litre)

Product Code: BP059-5

PROCESS STAGE	POTENTIAL RISK	CONTROL MEASURES	ACTION REQUIRED
DELIVERY			
Packaged in 5 litre polythene containers in a cardboard carton.	Risk of spillage if the container is dropped. Risk of injury to user if dropped.	Trained employees should handle only single containers at any given time. Take care not to drop the containers. Ensure that the cap is always secure.	Transfer container to store immediately following delivery. Do not leave containers in areas where users of the building will come into contact with them.
STORAGE			
Containers must be stored upright in a cool, dry storage area. Product must be kept stored in its original sealed container.	Minimal risk of spillage if caps are firmly in place. Keep out of reach of children. Caps are not child proof.	Ensure that the product is stored away securely. Keep containers in secure storage areas. Store all containers below chest height to minimise risk of dropping. Restrict access to storage areas to authorised personnel.	Use oldest stock first. Make regular checks to ensure that storage area is clean and tidy. Make regular checks to ensure containers are not split or blown.
USAGE			
Ideally dispensed into washing machine through a Dispensing Unit. Typical dosage rate 6-9mls per kilo of dry weight fabric. Jangro recommends using product in conjunction with Jangro Laundry Liquid (BP053). The two products work synergistically to enhance the appearance, texture and fragrance of the fabric. N.B. Do NOT use on rubber or waterproof bedding. Wash hands thoroughly after use.	Risk of eye contact. Risk of skin contact. Risk of ingestion. Risk of Inhalation.	Handle the containers with care. Ensure that the container is returned to store when not in use. Always read the manufacturer's instructions prior to use. Ensure that all spillages are wiped up immediately.	Ensure that operatives are aware of Location of First Aid facilities and personnel.
DISPOSAL			
Empty containers must be rinsed thoroughly and disposed of as normal waste. Residual stocks may be disposed of into a foul sewer (sluice) using plenty of water. Recycle all containers wherever facilities are available.	If in eyes: Rinse cautiously with water for several minutes. Remove contact lenses if present and easy to do so. Continue rinsing. If pain, redness or blinking continues get medical advice. If inhaled allow affected person to breathe fresh air. If swallowed: Do NOT induce vomiting and obtain emergency medical attention.	Wash out the container using plenty of water. Do not store any other material in the empty container. Ensure that the container is exhausted before disposal. Ensure that the product is not disposed of via a rainwater sewer (ie drain outside the building).	Ensure that all operatives wear Personal Protective Equipment at all times during disposal. Ensure that all operatives are aware of the First Aid equipment.
