Jangro

COSHH RISK ASSESSMENT

Jangro Laundry Starch Solution (5 Litre)

Product Code: BP083-5

PROCESS STAGE	POTENTIAL RISK	CONTROL MEASURES	ACTION REQUIRED
DELIVERY			
Packaged in 5 litre polythene containers in a cardboard carton.	Risk of spillage if the container is dropped. Risk of injury to user if dropped.	Trained employees should handle only single containers at any given time. Take care not to drop the containers. Ensure that the cap is secure at all times.	Transfer container to store immediately following delivery. Do not leave containers in areas where users of the building will come into contact with them.
STORAGE			
Store in original sealed container and protect from extremes of temperature.	Minimal risk of spillage if caps are firmly in place. Caps are not child proof. Keep out of reach of children.	Ensure that the product is stored away from oxidising materials. Keep containers in secure storage areas. Store all containers below chest height to minimise risk of dropping. Restrict access to storage areas to authorised personnel..	Use oldest stock first. Make regular checks to ensure that storage area is clean and tidy. Make regular checks to ensure containers are not split or blown.
USAGE			
For machine use or use by hand, check back of label and manufacturer's instructions for instructions. See the chart on the label for recommended concentration levels and adjust the concentration according to your requirement for hold.	Avoid contact with eyes and skin. Causes eye irritation. If ingested rinse mouth, do NOT ingest vomit. Risk of spillage onto floor and into drainage system.	Handle the containers with care. Ensure that the container is returned to store when not in use. Always read the manufacturer's instructions prior to use.	Provide employees with PPE as follows: • Protective overall • Safety glasses • Protective gloves When mixing solutions, ensure that operatives add product to water. Ensure that operatives are aware of location of First Aid facilities.
DISPOSAL			
Empty containers must be rinsed thoroughly and disposed of as normal waste. Residual stocks may be disposed of into a foul sewer (sluice) using plenty of water. Recycle all containers wherever facilities are available.	If in eyes: Rinse cautiously with water for several minutes, remove contact lenses if possible. Continue rinsing. If discomfort persists after ingestion, seek medical advice.	Wash out the container using plenty of water. Do not store any other material in the empty container. Ensure that the container is exhausted before disposal. Ensure that the product is not disposed of via a rainwater sewer (ie drain outside the building).	Ensure that all operatives wear Personal Protective Equipment at all times during disposal. Ensure that all operatives are aware of the First Aid equipment.
