Jangro

COSHH RISK ASSESSMENT

Jangro Professional Antiviral Disinfectant (5 Litre)

Product Code: BA063-5

PROCESS STAGE	POTENTIAL RISK	CONTROL MEASURES	ACTION REQUIRED
DELIVERY			
Packaged in 5 litres polythene bottles with integral carry handle.	Risk of spillage if the container is dropped. Risk of injury to user if dropped.	Trained employees should handle only single containers at any given time. Take care not to drop the containers. Ensure that the cap is always secure.	Transfer container to store immediately following delivery. Do not leave containers in areas where users of the building will come into contact with them.
STORAGE			
Containers must be stored upright in a cool, well ventilated, dry storage area. Product must be kept stored in its original container.	Minimal risk of spillage if caps are firmly in place. Caps are not child proof.	Restrict access to storage areas to authorised personnel. Keep the store well ventilated. Clear up spills immediately. Ensure that product is stored away from substances that contain oxidising agents.	Use oldest stock first. Make regular checks to ensure that storage area is clean and tidy. Make regular checks to ensure containers are not split or blown.
USAGE			
Product is ready to use. It can be used to refill triggers bottles. Product is sprayed directly onto surface where it cleans and disinfects in one action. Follow instructions on label for contact time.	Risk of eye contact. Risk of skin contact. Risk of ingestion. Risk of inhalation. Risk of spillage onto floor and into drainage system.	Handle the containers with care. Ensure that the bottle is returned to the store when not in use. Always read the manufacturer's instructions prior to use. Ensure that all spillages are wiped up immediately.	Provide employees with PPE as follows: • Protective gloves When mixing solutions, ensure that operatives add product to water Ensure that operatives are aware of location of First Aid facilities
DISPOSAL			
Discharge used solutions into drain. Small amounts (less than 5 litres) of unwanted product may be flushed with water to sewer. Consign empty containers to normal waste.	Small risk of skin or eye contact. Small risk of inhalation and ingestion. Risk of contamination with other substances.	Wash out the container using plenty of water. Do not store any other material in the empty container. Ensure that the container is exhausted before disposal.	Ensure that all operatives wear Personal Protective Equipment at all times during disposal. Ensure that all operatives are aware of the First Aid equipment.
