Jangro

COSHH RISK ASSESSMENT

Jangro Professional Destaining Powder (2.5kg)

Product Code: BB110-2

Warning

PROCESS STAGE	POTENTIAL RISK	CONTROL MEASURES	ACTION REQUIRED
DELIVERY			
Packaged 2.5kg plastic tubs. Re-sealable lids. Containers incorporate wire handle for carriage.	Risk of spillage if the container is dropped. Risk of injury to user if dropped.	Trained employees should handle only single containers at any given time. Take care not to drop the containers. Ensure that the cap is always secure.	Transfer container to store immediately following delivery. Do not leave containers in areas where users of the building will come into contact with them.
STORAGE			
Containers must be stored upright in a cool, well ventilated, dry storage area. Product must be kept stored in its original container.	Minimal risk of spillage if lids are firmly in place. Lids are not child proof.	Keep containers in secure storage areas. Keep lid firmly on container. Restrict access to storage areas to authorised personnel.	Use oldest stock first. Make regular checks to ensure that storage area is clean and tidy. Make regular checks to ensure containers are not split or blown.
USAGE			
Product dispensed into a bowl or sink of warm water.	Risk of severe skin and eye contact and damage. Risk of ingestion. Risk of inhalation. Risk of spillage onto floor and into drainage system.	Handle the containers with care. Wear Personal Protective Equipment. Brush up any spillages immediately. Ensure that the container is returned to the store when not in use. Always read the manufacturer's instructions prior to use. Do not mix with other chemicals.	Provide employees with PPE as follows: • Protective Gloves When mixing solutions, ensure that operatives add product to water. Ensure that operatives are aware of location of First Aid facilities
DISPOSAL			
Empty containers can be disposed of as normal waste. Residual stocks must be disposed of as hazardous waste and disposed of accordingly. Recycle all containers wherever facilities are available.	Small risk of skin or eye contact. Small risk of inhalation or ingestion. Risk of contamination with other substances.	Wash out the container using plenty of water. Do not store any other material in the empty container. Ensure that the container is exhausted before disposal. Ensure that the product is not disposed of via a rainwater sewer (ie drain outside the building).	Ensure that all operatives wear Personal Protective Equipment at all times during disposal. Ensure that all operatives are aware of the First Aid equipment.
