Jangro

COSHH RISK ASSESSMENT

Jangro Professional Sanitising Powder (10kg)

Product Code: BB105-10

Danger

PROCESS STAGE	POTENTIAL RISK	CONTROL MEASURES	ACTION REQUIRED
DELIVERY			
Packaged in 10 kg plastic tubs. Re-sealable lids. Containers incorporate wire handle for carriage. Product is supplied ready to use.	Risk of spillage if the container is dropped. Risk of injury to user if dropped.	Trained employees should handle only single containers at any given time. Take care not to drop the containers. Ensure that the cap is always secure.	Transfer container to store immediately following delivery. Do not leave containers in areas where users of the building will come into contact with them.
STORAGE			
Containers must be stored upright in a cool, well ventilated, dry storage area. Product must be kept stored in its original container.	Risk of emission of noxious fumes if involved in a fire – product itself is not flammable. Minimal risk of spillage if lids are firmly in place. Lids are not child proof.	Keep containers in secure storage areas. Store all containers below chest height to minimise risk of dropping. Restrict access to storage areas to authorised personnel. Keep container dry. Keep away from strong acids.	Use oldest stock first. Make regular checks to ensure that storage area is clean and tidy. Make regular checks to ensure containers are not split or blown.
USAGE			
Product can be dispensed into a bowl, bucket or sink of warm water.	Risk of severe skin and eye contact and damage. Risk of ingestion. Risk of inhalation. Risk of spillage onto floor and into drainage system.	Handle the containers with care. Wear Personal Protective Equipment. Brush up any spillages immediately. Ensure that the container is returned to the store when not in use. Always read the manufacturer's instructions prior to use.	Provide employees with PPE as follows: • Protective Gloves Ensure that operatives are aware of location of First Aid facilities
DISPOSAL			
Empty containers can be disposed of as normal waste. Residual stocks must be disposed of as hazardous waste and disposed of accordingly. Recycle all containers wherever facilities are available.	Small risk of skin or eye contact. Risk of contamination with other substances..	Wash out the container using plenty of water. Do not store any other material in the empty container. Ensure that the container is exhausted before disposal. Ensure that the product is not disposed of via a rainwater sewer (ie drain outside the building).	Ensure that all operatives wear Personal Protective Equipment at all times during disposal. Ensure that all operatives are aware of the First Aid equipment.
