Jangro

COSHH RISK ASSESSMENT

Jangro Professional Tablet Salt (2kg)

Product Code: BB096-2

PROCESS STAGE	POTENTIAL RISK	CONTROL MEASURES	ACTION REQUIRED
DELIVERY			
Packaged in 2kg polythene containers in a cardboard carton. Delivered in single containers if required.	Risk of spillage if the container is dropped. Risk of injury to user if dropped.	Trained employees should handle only single containers at any given time. Take care not to drop the containers. Ensure that the cap is always secure.	Transfer container to store immediately following delivery. Do not leave containers in areas where users of the building will come into contact with them.
STORAGE			
Containers must be stored upright in a cool, well ventilated, dry storage area. Product must be kept stored in its original container.	Minimal risk of spillage if lids are firmly in place. Lids are not child proof. Risk of emission of noxious fumes if involved in a fire – product itself is not flammable.	Keep containers in secure storage areas. Store all containers below chest height to minimise risk of dropping. Restrict access to storage areas to authorised personnel. Keep container dry. Keep away from strong acids.	Use oldest stock first. Make regular checks to ensure that storage area is clean and tidy. Make regular checks to ensure containers are not split or blown.
USAGE			
Tablets are dispensed directly into automatic dishwashing machines water softener.	Risk of severe skin and eye contact and damage. Risk of ingestion. Risk of inhalation. Risk of spillage onto floor and into drainage system.	Handle the containers with care. Wear Personal Protective Equipment. Brush up any spillages immediately. Ensure that the container is returned to the store when not in use. Always read the manufacturer's instructions prior to use. Use cup to dispense from container.	Provide employees with PPE as follows: • Protective Gloves Ensure that operatives are aware of location of First Aid facilities
DISPOSAL			
Residual stocks can be disposed of with general refuse.	Small risk of skin or eye contact. Risk of contamination with other substances.	Wash out the container using plenty of water. Do not store any other material in the empty container. Ensure that the container is exhausted before disposal. Ensure that the product is not disposed of via a rainwater sewer (ie drain outside the building).	Ensure that all operatives wear Personal Protective Equipment at all times during disposal. Ensure that all operatives are aware of the First Aid equipment.
