Jangro

COSHH RISK ASSESSMENT

Jangro Premium Low Temperature Laundry Destainer (20 Litre)

Product Code: BP240-20

Danger

PROCESS STAGE	POTENTIAL RISK	CONTROL MEASURES	ACTION REQUIRED
DELIVERY			
Packaged in 20 litre polythene containers in a cardboard carton. Delivered in single containers if required.	Risk of spillage if the container is dropped. Risk of injury to user if dropped.	Trained employees should handle only single containers at any given time. Take care not to drop the containers. Ensure that the cap is always secure.	Transfer container to store immediately following delivery. Do not leave containers in areas where users of the building will come into contact with them.
STORAGE			
Containers must be stored upright in a cool, well ventilated, dry storage area. Product must be kept stored in its original container.	Risk of emission of toxic fumes if involved in a fire. Contact with combustible material may cause fire. Minimal risk of spillage if caps are firmly in place. Caps are not child proof.	Ensure that the product is stored away from combustible material, strong oxidising agents and strong acids. Keep containers in secure storage areas. Restrict access to storage areas to authorised personnel.	Use oldest stock first. Make regular checks to ensure that storage area is clean and tidy. Make regular checks to ensure containers are not split or blown.
USAGE			
Dispense into an automatic washing machine using an automatic dosing system. Hand dosing is not recommended.	Risk of eye contact. Risk of skin contact. Risk of ingestion. Risk of inhalation. Risk of spillage onto floor and into drainage system.	Handle the containers with care. Wear Personal Protective Equipment. Ensure that the container is returned to store when not in use. Always read the manufacturer's instructions prior to use. Ensure that all spillages are wiped up immediately.	Provide employees with PPE as follows: • Safety Goggles When mixing solutions, ensure that operatives add product to water. Ensure that operatives are aware of location of First Aid facilities and personnel.
DISPOSAL			
Empty containers can be disposed of as normal waste. Residual stocks must be disposed of as hazardous waste and disposed of accordingly. Recycle all containers wherever facilities are available.	Small risk of skin or eye contact. Risk of contamination with other substances.	Wash out the container using plenty of water. Do not store any other material in the empty container. Ensure that the container is exhausted before disposal. Ensure that the product is not disposed of via a rainwater sewer (ie drain outside the building).	Ensure that all operatives always wear Personal Protective Equipment during disposal. Ensure that all operatives are aware of the First Aid equipment.
